

# ARKANSAS ROCKHOUND NEWS

## MISSION STATEMENT

The Central Arkansas Gem, Mineral and Geology Society is dedicated to promoting interest in mineralogy and the related sciences, interest in lapidary and the related arts; to encourage field trips and the enjoyment of collecting and preserving minerals as they occur in nature, and the study of geological formations, especially those of our Natural State of Arkansas.

We are a small group of people that enjoy getting together to share our common interests.

Regular meetings are at the Terry Library (2015 Napa Valley Drive Little Rock, AR 72212) 6:30 PM on the fourth Tuesday of the month (except December)

APRIL 2022

**Is Spring here yet?** I feel like it is getting close. And who is ready to get out and do some rockhounding? I am for sure!

A few things I have run across recently that may be of interest to members...The AFMS has a new [Junior website](#), looks like they're continually adding to it so check it out. Speaking of the AFMS, their [annual show and convention](#) will be close to us this year. It will be held in conjunction with the SCFMS and will be in Westwego, LA on October 12-16. Finally, the Midwest Federation (our federation) also has a new [website](#) and will be having their annual convention October 21-23 in Springfield, MO.

Please join us for our monthly meetings, below is the schedule for the year.

**April 26** - Prim Boulders by Doug Hanson

**May 24** - Cave City Minerals by Angela Chandler (field trip to Cave City, AR on May 28th)

**June 28** - Fabricating Jewelry by Michael Fuqua or Fuqua Jewelers

**July 26** - Total Solar Eclipse, the Arkansas Experience by Darcy Howard and Carl Freyaldenhoven

**August 23** - Auction!

**September 27** - No program, CAGMAGS show planning

**October 25** - Byzantine Chain Making by Bill Alcott

**November 22** - UALR Student

**December** - Christmas Party

**ARKANSAS ROCKHOUND NEWS** is the official newsletter of the Central Arkansas Gem, Mineral and Geology Society. It is published monthly. To submit information, articles or photographs please email Nikki Heck, [nikkidheck@gmail.com](mailto:nikkidheck@gmail.com).

28th of each month.

## Meeting minutes...

---

February 22, 2022

-Lenora Murray, Secretary

The February 22nd meeting was called to order by President John Schoeneman, with 24 members and guests present. John welcomed one visitor, Paula, and many second time new members. Secretary Lenora Murray read the minutes and Treasurer Barbara Champagne read the January treasurer report. Lenora mentioned the books were audited and approved for 2022 and copies of the reports were available.

Jay Hester explained three possible field trips when weather permits. Stephanie Blandin discussed two future educational field trips. Details will be available at the next meeting.

Dave Murray gave a short show report. Bill Alcott had a sample flyer for the April 30 swap at Burns Park. and will have copies at the next meeting. Members were informed that there will be an organizational meeting of the show and swap committees on March 19 at Whole Hog Cafe in North Little Rock at 1:00 PM. All members who wish to be part of the planning for either event are urged to attend. Lunch is up to each individual, and "pay your own meal" is in effect.

In old business, Lenora reminded members we do not have a new treasurer, but Barbara will continue as acting treasurer. In new business, a short discussion explaining the history and purpose of the UALR scholarship was held. The club then voted to give \$3,000 to UALR for the 2022 scholarship. We will need volunteer members to help staff our club table at the Memphis show April 23 and 24. There will be a sign-up sheet at the March meeting for helpers.

Show and tell time had a couple specimens this secretary did not see. One was a rare dolomite, malachite, and calcite specimen Stephanie Blandin brought in, which was too fragile to be passed around. Cindy Lynn brought a number of very interesting mineral books she kindly allowed interested members to borrow. There being no further business, the meeting was closed, with a

spirited, but short raffle, followed by the Program "How a New Mineral Gets Its Name:" by Mike Howard.

---

## CAGMAGS Board of Directors Meeting 2/22/2022 MINUTES

The Board of Directors was held at 6 PM Feb.22, with 7 members present. The first order was mention that we have no NEW treasurer. Barbara Champagne is "acting treasurer" at this time. Bill Alcott and Lenora Murray have finished with the audit of the 2021 books. Copies of the final financial reports for both the show and the whole club were passed out to all the board members.

The second business was discussion of the "memo of understanding" regarding the UALR scholarship. It was moved, seconded and passed that the words "not to exceed 50%" be added to the 2nd line of the club portion of the memo of understanding... It was also agreed the board would suggest the club members vote to send \$3,000 to UALR for the scholarship by March 1.

A short discussion of the show and swap was held. It was agreed to have a show/swap committee meeting Feb. 19 at Whole Hog Cafe in North Little Rock at 1:00 PM. All members who would like to help are welcome. Meeting was adjourned at 6:30.

Submitted by  
Lenora Murray, secretary

---

March 25, 2022  
*-Bill Alcott, standing in for Lenora Murray*

President John Schoeneman called the meeting to order at 6:45pm. Nikki Heck read the minutes which were accepted as read. Falk Burger was introduced and welcomed as a new member.

Acting Treasurer Barbara Champagne read the Treasurer's Report which was accepted as read. Then we went into the upcoming Swap Meet rather than the standard "Old Business/New Business". Barbara Champagne has volunteered

to handle the food at the swap. The club voted to give her an allowance of \$100 for supplies from which she mentioned doing hot dogs, chips, and water. The idea was presented to the group to do anything else that's wanted as pot-luck. If you want to bring snacks or dessert type items, they'd be most welcomed! Debbie Bodeker has volunteered to do a silent auction at the swap to help defray the costs of renting the pavilion and buying food. She asks if anyone wants to donate rock related items to the auction, to please bring them to the next meeting. A label or note telling the variety and location if known would be helpful!

Barbara Champagne got copies made for both the Swap AND the October Show flyers, and we thank her very kindly for that! Bill Alcott will take care of getting signs made up and posted the morning of the show around the area of I-40 exit 150 showing folks how to navigate that final mile.

Lenora wasn't there but asked that we make sure everyone knows that the paperwork finally fell into place and CAGMAGS is now a registered Non-Profit 503C both State and Federal! Thank you, Lenora!

Stephanie Blandin gave her schedule for programs and educational field trips upcoming. April 26th, the next meeting will be a program on the Prim Boulders, followed on May 7th by a field trip to go see the Prim Boulders. Then in May, the 24th will be a program on Cave City at our meeting followed by a field trip to Cave City on May 28th.

There was no update on collecting filed trips, but several irons in the fire. The annual Memphis Show is April 23rd and 24th. Jay Hester is going to work our table at the show, and the club voted to cover his hotel stay.

For Show and Tell, Falk Burger had a box of handmade jewelry pieces, fossils, volcanic stalagmites, opals, garnets and more. Quite the display of ooohs and aaaaahs! John Schoeneman closed the meeting at 7:41 and Jay Lester gave a presentation on the Rush Mines and Minerals.

## Spotlight...

*Arif and Aisha Jan of Rocksaholics are long time friends of the Central Arkansas Gem, Mineral and Geology Society. We are also honored to have them as vendors each year at our annual show and to be able to share their exquisite minerals with attendees.*

Peshawar, Pakistan.  
Gem & Mineral  
Capital of the  
world.  
My journey.....  
By Aisha Jan

Peshawar is the ancient city in the North West Frontier Province of Pakistan. This historic city is in a valley surrounded by rugged mountains. It is the bedrock of Buddhism and it is less than 50 miles to the border of Afghanistan via the famous Khyber Pass.

Many invaders entered via this pass, but were never allowed to leave. Alexander the great and The British, just to name a few.

This is the land of the Pathans.

A people of several warrior tribes, known for their bravery and hospitality. They make the best friends and worst enemies.

Feuds can take decades to resolve.

Respect, bravery, loyalty, hospitality and honour is their code of conduct.

I had the privlidge to visit this amazing ancient city for the first time, in 1978. My objective was to purchase Lapis Lazuli to introduce it to the USA market.

I was surprised to see mostly small shops that sold items made out of old tires and some sold natural cotton to be used in pillows and quilts. In back alleys, there

were adobes ( dwellings made out of mud) and very secretly, Lapis rough was available for sale, but only in huge quantities. This area in Peshawar was called Nimak Mandi, which translates to the Salt market. This area also used to house large adobe warehouses that housed exotic spices, dry fruits and salt.

Peshawar is close to the ancient Silk Route that ran from China in the East and Turkey and beyond to the West.

The locals were amazed to see me, because it is a totally male dominated society.

Women were never seen in the old city and those that were, wore the Chaddar or Burka, which covered them from head to toe. This is part of their tradition and ancient culture.

I arrived, wearing red lipstick, fashionably dressed, and did not speak the language.

At times, I was accosted by men, that flashed open their waistcoats, dove into the pockets and came up with small packets of uncut and cut, Emeralds and Rubies. I soon discovered that this area had a lot to offer as far as gemstones and these folk were treating it like a contraband. After several visits from 1978 to 1984 and upto 4 vists per year, I decided to move to Peshawar, lock stock and barrel. My two children were in a severe culture shock. Having come from Miami Florida USA to a ancient city that was thousands of years old and in the Nimak Mandi area, it seemed that time stood still.

I proceeded to open the very first office in a recently built three story building on what is now known as

During the 15 years I was based in Peshawar, I educated the locals, marketed their gems and minerals all over the world, bringing in huge amounts of money after the sales of their gem materials. I arranged and lead the first all male delagation of local dealers to the Tucson Show in 1995 and in 1994, organized Pakistan's very first Gem & Mineral Show, in a 5 star hotel in Peshawar, all with the assistance of the government of Pakistan.

Gem Street. Compared to the other buildings, mine looked like a skyscraper!

The locals ( Men ) promptly protested, stating that I was exposing this secret business. I received threats of kidnapping unless I packed up and went back to America. I found out who had threatned me. He was the local mafia chief. I paid him a visit and explained that he is a Pathan and I am his guest. As per his tradition, he had to extend his hospitality and provide me with protection. He was in absolute shock. I then asked to use his large courtyard to hold a meeting of the locals and tribal leaders. Everyone came. I stood on a platform, could not speak a word of Pushto and as I looked at the sea of mostly bearded and turban headed men, many with AK47 automatic rifles, I realised it was a do or die situation.

I greeted all the tribal leaders and the local " gem dealers " and via a translator, I assured everyone that I was here to help and educate them and market the natural treasures their countries ( Pakistan & Afghanistan ) were blessed with. I clarified that I was also going to help myself in this endeavour; therefore it was a win, win situation for all.

I once again reminded them that I was their guest and it was their responsibility to protect me as per their Pushtoon traditions that goes back 4000 years.

The meeting was a success and to celebrate the occasion, as per their tradition, arial automatic gun fire erupted. I tried hard to stay calm, did not scream nor duck for cover. My response to the gun fire, made me, one of the "guys. " That was the beginning of a long relationship, that exists to this day.

I advised the tribal elders to educate their children and I watched and experienced the transformation of Nimak Mandi Peshawar, with new buildings and offices with huge signs on them. No more was it a secret business.

I then proceeded to bring in buyers from the USA, Europe, Middle East, India and from the far East, to Peshawar.

By the time I was ready to leave back for the USA, Nimak Mandi Peshawar had become the Gem and Mineral Capital of the world!!!

To date, I beam with pride, when I see the new educated generation of mineral dealers and brokers.

My thoughts go back to that day, when I was threatened to be kidnapped but I stood my ground. I remember the tribal elders and now see their educated children.

I am humbled by the love and respect I receive when I visit Peshawar. Many young men come upto me and tell me, I have heard about you from my father who had an immense amount respect for you, because what you did for our countries. To hear this from Pushtoons, is one of the biggest honour any non Pushtoon woman can receive.

By: Aisha Jan. AKA Aisha Rind.

# Of interest...

## Mineral Illustrations' Longevity by Beth Simmons

In the February *Tips & Chips*, the quote of the month, citing Dr. Bill Cordua at U. Wisconsin at River Falls, stated "Once mineralogists describe something, they hate to let go of it." That goes for their mineral illustrations, too!

In 1859 (163 years ago), Carl Friedrich Naumann published a mineralogy textbook, "Elemente der Mineralogie," in Germany, available now online (in German) at [Elemente der Mineralogie \(archive.org\)](http://Elemente der Mineralogie (archive.org)), scanned from a copy at the University of California, donated by Louis Gavin in 1897, 125 years ago. It wasn't Naumann's first!

In it, for each example of crystal form, Naumann usually posted a simple illustration.

Some of Naumann's illustrations of isometric crystals from 1859.

A group of isometric crystal illustrations from Dana's standard Manual of Mineralogy, 17th edition, 2nd Printing 1961. Adapted from the original 1912 text.

At the same time, Edward Dana, was making strides in mineralogy in Germany and then came to America. He published mineralogy books, one of which, "Dana's Manual of Mineralogy," those of us in my generation cut our eye teeth on. Guess what? The illustrations, some of which are shown here, match!!!  
Dana plagiarized Naumann!

Sketch of a gypsum crystal, (monoclinic) on left from Naumann, 1859

On right from Dana, 1961

So along comes the modern technology with all its information available at our finger tips. Look up Crystal Morphology ([Crystal morphology - zxc.wiki](http://Crystal morphology - zxc.wiki)) and Hexagonal Crystal System ([Hexagonal crystal system - zxc.wiki](http://Hexagonal crystal system - zxc.wiki)) on Wikipedia.

Isometric (cubic) forms from Naumann, (1859)

Isometric (cubic) forms from WIKIPEDIA (02/13/22)!!!

Hexagonal crystal forms from Naumann (1859) above.

Hexagonal crystal forms from WIKIPEDIA (02/13/22) below!!!

Even though copyright dates have long passed, there is no question that Wikipedia is STILL using the same illustrations as the famed mineralogist put forth over a century and a half ago!

It's said that "Old Rockhounds never die. They just slowly petrify."

That obviously goes for their terminology and illustrations, too!!!

Brandon Heck is the Junior Editor of Arkansas Rockhound News. He is 13 years old and has enjoyed rockhounding since he could walk. In each issue he will share information about minerals that he loves and about his adventures in rockhounding.

## Mary-Mary's Garden

By Marj Becker

Mary-Mary, How does  
Your garden grow?

What is that  
In your garden?

I see blossoms  
Of green  
And purple  
And red.

But, I look again  
And there are  
No flowers.  
But hard blues

And reds  
And orange,  
Blacks  
And spots.

There are rocks.  
No. No. It is lithops.  
It's a living  
Rock!

The rose nestled  
Next to the fence  
Is really  
The barite desert rose

There are the mums  
Little buttons of  
Yellow and orange  
White and purple on stems.

Or are they  
Purple clover?  
Rather, I think  
They're chrysothymite stones.

Mary, Mary...  
When are your flowers  
Not a flower?  
When it's  
A Rock!

Iron Rose, hematite w/ titanite, France, Mindat.org, Jean-Marc Johannet

Rose-like calcite on fluorite; Yaogangxian, China, Tim Bauer, Lapdiarian

## Upcoming area shows...

### April 2022

22-24—WICHITA, KANSAS: Show and sale; Wichita Gem & Mineral Society; Cessna Activity Center, 2744 George Washington Blvd; Fri. 9-6:30, Sat. 10-6, Sun. 10-5; Adults - \$5, Youth 13 - 17 \$1, Children 12 and under free; Friday, April 22 is Education Day. Attractions for children, exhibits, dealers from across the U.S. ; contact Gene Maggard, 8318 SE Highway, Leon, KS 67074, (316) 742-3746; Email: gandpmaggard@gmail.com; Website: wichitagemandmineralsociety.org

22-24—IRVINE, KENTUCKY: Annual show; Southeast KY Gem, Mineral, and Fossil Club; Estill County Schools Central Office, 253 Main Street; Fri. 9-5, Sat. 9-6, Sun. 10-5; FREE!; Guided hunts in local creeks. Visit [www.mountainmushroomfest.org](http://www.mountainmushroomfest.org) for application; contact Francine Bonny, (606) 723-2554; Email: mushroomfestival@irvineonline.net

23-24—TROY, OHIO: Annual show; Miami County Gem & Mineral Club; Miami County Fairgrounds, 650 N. Co Rd 25A; Sat. 10-6, Sun. 10-4; Adults \$2.00, free admission for children under 18; Dealers selling minerals, fossils, specimens, jewelry, gems; demonstrations and displays; activities for children; contact Dewey Buck, PO Box 885, Troy, OH 45373, (937) 308-3012; Email: deweybuck12@gmail.com; Website: Dewey Buck

23-24—CUYAHOGA FALLS, OHIO: Show and sale; Summit Lapidary Club and Akron Mineral Society; Emidios Expo Center, 48 E Bath Rd ; Sat. 10-6, Sun. 10-5; Adults \$5.00, Seniors (55+) \$4.00, Children 7-14 \$1.00, Under 7 and Scouts in uniform Free; Show participants will adhere to safety regulations related to Covid-19. Dealers will be selling rocks, minerals, fossils, gemstones, jewelry, lapidary art and supplies; displays and demonstrations and activities for children ; contact Evelyn Tryon, 2028 Tallmadge Rd, Kent, OH 44240-6806, (330) 673-9664; Email: gemboree76@gmail.com; Website: Summit Lapidary Club, Akron Mineral Society and Gemboree Network

23-24—MEMPHIS, TENNESSEE: Annual show; Memphis Archaeological and Geological Society.; Memphis Agricenter, Memphis, 7777 Walnut Grove Road; Sat. 9-6, Sun. 10-5; Adults \$5, 2-day pass \$8, 12 & under \$2, scouts in uniform free; Over 50 Dealers and Exhibitors selling rocks, fossils, minerals, crystals, gemstones, opals, beads and jewelry. Kids Areas with gem and fossil dig, geode bowling and Rocks around the Clock. Includes the original "Memphis Rock Banquet" a full table display of rocks that look real food; contact WC McDaniel, (901) 490-35; Email: info@theearthwideopen.co; Website: [www.theearthwideopen.wixsite.com](http://www.theearthwideopen.wixsite.com)

### April 2022-May 2022

30-1—WACO, TEXAS: Annual show; Waco Gem And Mineral Club; Waco Convention Center, 100 Washington Avenue; Sat. 10-5, Sun. 10-5; Children 6 years and under and Scouts in uniform are free. Ages 7 thru 17: \$3.18 and older: \$5; 62nd annual show. Featuring Gems, Jewelry, Fossils, Mineral Specimens, Educational booths. Perfect place to shop for Mothers Day; contact Roy G. Cooper, (254) 749-9961; Email: coopersfarmstore@yahoo.com; Website: [www.WacoGemandMineral.org](http://www.WacoGemandMineral.org)
